The year in review

Arkiv Digital are summing 2009. It's 10 years since all the talk about the Millennium bug and what it would do. Luckily it was not as serious as we thought. 10 years ago, nobody had thought of that we today could sit at home with our computer and read all the exciting church records and other things in the best possible quality, in color, in AD *OnLine*.

2009 has been an exciting year for us in Arkiv Digital. A lot has happened and new counties has been completed. Estate Inventories is something we hope you will find in the counties that we are ready.

Unfortunately, we failed to fulfill our desire and hope that we shall be finished with the older church records (-1894) for the whole Sweden, but we will be next year. There are various causes, but now it's Christmas time and we should have positive thoughts and why we take another day.

18 708 210 pictures

Right now, we have more than 18.7 million images in our image database AD *OnLine*. At the beginning of the year it was 5.3 million fewer. This means that we on average have photographed approximately 450,000 images per month or over 24,000 images of each working day.

Shooting in progress

Arkiv Digital is already finished with church records for the following counties: Blekinge, Dalarna, Gävleborg, Göteborgs and Bohuslän, Halland, Jönköping, Kalmar, Kronoberg, Skaraborg, Södermanland, Uppsala, Värmland, Västmanland, Älvsborg, Örebro and Östergötland.

We are in process with: Malmöhus (will be finished in February 2010), Västernorrland (will be finished in February 2010), Kristianstad (will be finished summer 2010), Stockholm (will be finished 2010) as well as Västerbotten, Norrbotten, Jämtland och Gotland.

The genealogy days 2010 in Örebro

The preparations for next year's genealogical days in Örebro has already begun and the organizers are our partner Örebro Släktforskarförening.
